ABOUT US

Back in the 70's when 4WD's were few and far between, three adventure seeking mates got their ‘off road thrill’ with customised FJ40s, F100s & Rovers. Each fitted with custom made bull bars, roll bars and sand tyres – they drew the attention of friends and bystanders. Before long, Lloyd Taylor, Cliff Jones and Steve Mollenhauer were making hand-made custom bars for a growing number of fans. As the demand continued to grow, they decided it was time to get serious.

In 1973, with little more than their combined initials, shared passion and appreciation for quality products - TJM was founded and the rest is history. They were pioneers and TJM became the first company in Australia to manufacture and distribute quality 4WD equipment.

Our product range has extensively grown to include; steel and alloy bull bars, nudge bars, side and rear protection bars, side steps, trade racks, roof racks, TJM recovery equipment, TJM winches, TJM XGS suspension, Airtec snorkels, TJM Pro Lockers and TJM roof top tents & awnings.

While TJM has grown to be a sophisticated operation, we have never forgotten the key elements that resulted in the formation of the brand.

Trust; from the quality of manufacturing.

Pride; in our innovative designs.

Adventure; heading out from suburbia and experiencing the wonders of our unique and breathtaking country, Australia.
FEATURES OF A TJM OUTBACK BULL BAR

TJM Outback bars employ a multiple fold channel/wing design. Folds are deliberately spaced across the channel for maximum strength and stylish looks. The upswept tapered wing provides excellent approach angle for accessibility.

Recessed fog lights come standard along with recessed polycarbonate indicators & park lights.

TJM bull bar uprights feature a single piece of steel which extends from the upright down through the bumper channel to the chassis mount, maximising strength. 40mm Cato straps soften the edges and add to the aesthetics.

TJM bull bars provide secure, strong and stable mounting points to fit a large array of driving lights. The strength of the TJM product guards against excessive movement resulting in a vibrating beam pattern, bulb failure or light body fatigue.

TJM’s channel design allows maximum airflow to the vehicle's radiator. These vents as well as the viewing hole on the top of the channel also allows easy access to the vehicle's winch controls.

Vehicle mounted aerials are often essential when travelling in remote locations. TJM bull bars feature two heavy duty aerial tabs located behind the bars top cross tube. TJM aerial tabs are slotted for easy aerial installation. (Certain TJM bull bar models may not incorporate the slotted feature).

TJM’s mounting system is specifically engineered for each vehicle. The design spreads impact and winching loads evenly across the vehicle’s chassis. The design ensures the bull bar is strong enough for extreme conditions and functions properly in impact events.

The engineered winch frame mount accommodates a variety of winches and does not interfere with the vehicle’s airbag triggering system. The bar is designed and tested to endure the heavy stresses of winching.

T-slot recovery jack points allow a TJM recovery jack to be mounted directly onto the bull bar. (Certain TJM bull bar models may not incorporate the T-slot feature).

Many TJM bull bars come as standard with an integrated underbody guard, additional Front, Sump & Transmission guards are also available separately depending on vehicle.
Certain TJM bull bar models may not incorporate all features.

Air Ram for D-Max 08-12 has been superseded by Air Ram 011AR14B97T shown left.

**TJM Airtec snorkels**

Snorkels are commonly the first accessory ever fitted to a four wheel drive. They assist with water crossings and provide hassle free air induction when immersed in dust. Air is cooler and cleaner at roof level than air travelling via the bonnet, which means greater fuel efficiency and less clogging of air filters. These are important factors, particularly when 4WDing on dry, dusty roads.

TJM Airtec snorkels are manufactured at the highest level. All products are made with leading Australian polymer materials that exceed the Australian Standard for UV stabilisation of UV8, with ratings at UV20-UV24. The colour pigmentation process doesn’t cut any corners either, giving you an even, dense and bleed-free product.

Unlike other manufacturers, TJM individually engineer and design the snorkel to suit the natural shape of the vehicle. Although functionality is important, we want you to look good too!

Proudly Australian made and quality assured, you can have the confidence that a TJM Airtec snorkel will achieve peak performance each and every time.

**How a TJM Airtec snorkel disperses rain water**

- Rain water drops entering the air ram of a TJM Airtec snorkel is captured at the back of the inside curved surface, pooled around the base of the air ram and dispersing through the drain holes.
- In the off chance that any minute rain water droplets find their way into the snorkel body, they will be atomized at the air filter.
- Finally, the last line of defence is the original water drain in the vehicle’s air cleaner assembly.*

* It is important that the complete TJM Airtec unit is positively sealed to ensure no water ingress at any point.
TJM XGS Series 4000 suspension

Whether you’re tackling corrugated roads, rough terrain, or you need to tow a caravan across the country, a TJM XGS Series 4000 suspension kit will improve every aspect of driving from road handling, braking ability, cushioning the ride from bumps and ruts, noise and vibration whilst also protecting the vehicle and its contents from wear and tear.

TJM Torq winches

TJM’s range of new generation Torq winches now have even more power for increased line speed and fast recovery. Stringently tested and utilising the highest standards in engineering design and manufacturing, you can count on a TJM winch when you’re in trouble. For those who enjoy a challenge, owning a TJM winch provides you with the freedom to visit more places. When you’re off the beaten track, stuck and lacking traction, it’s not always as simple as relying on a mate with traction to bail you out. Using a TJM winch is a much better way to successfully retrieve your vehicle.

TJM recovery equipment

Every situation is unique, and the right equipment and a well thought out plan are the key ingredients to successful vehicle recoveries. Designed by engineers and manufactured to the highest standards, TJM recovery equipment gets you out of trouble. Should you become bogged, stuck or immobile, TJM recovery gear becomes your backup plan to ensure you can continue your journey.

TJM air compressors

TJM has a range of vehicle mounted and portable compressors to suit your needs, whether that be for inflating tyres or operating TJM Pro Lockers.

TJM dual battery systems

Flat batteries are annoying enough when you’re within reach of help, but when travelling to remote locations through Australia, the last thing you need is a flat battery. TJMs range of international award-winning battery management systems will help you avoid the inconvenience and possible dangers of running your battery down.
Aeroklas are on the cutting edge of canopy manufacturing and development being the first company in the world to offer Engineered ABS Double Shell Canopies.

Both the inner and outer shells are moulded together to bring you twice the strength and durability than a single skinned canopy, featuring a higher impact resistance and ability to reshape after impact.

Available in dual and space cab, the Aeroklas canopy is painted using OE quality paint giving it such a perfect, glossy and flawless finish.

**PERFORMANCE YOU CAN RELY ON:**

**BUILT STRONG, BUILT TO LAST.**

- Double shell thermoformed ABS construction
- Smooth exterior finish
- Easy clean, ABS ripple finish interior
- Multiple side window configurations
- Sliding front window

- Optional track mount roof rack system or self support
- LED brake light & interior light
- Simple plug & play wiring
- Easy fit “No Drill” C-Clamp mounting system

- Single shell 5mm fibreglass construction
- Smooth exterior finish
- Multiple side window configurations
- Sliding front window
- Optional self support roof rack
- 100kg rated load capacity
- LED brake light & interior light

**Strength is the foundation**

Heavy duty 5mm fibreglass construction.

**Solid integrated base-rail**

Central to every canopy is the unique fully integrated base rail assembly. This provides a water tight, extremely strong mounting architecture for enduring performance.
LED dome light
- LED interior light with rear door switch

C-Clamp system
- Easy to fix and requires no drilling into the vehicle body

Track mount roof bars
- Allows the fitment of roof racks with a loading capacity of up to 80kg

Handle lock & keys
- Large size, strong and easy to hold
- Key alike to windows

Window options
- Lift up side windows available

LED brake light
- Built in and fixed permanently into the roof to provide safety while driving

We’ve set the standard AS 1235; 2000
All dual cab canopies have successfully achieved a rated load capacity of 100kg.

Window options
Adaptable window options: No windows (fibreglass sides), fixed, sliding or lift-up side windows options.

Robust roof rack mounts
A dual layer of 4.5mm fibre reinforced composite greatly increases the thickness and strength.

Smooth exterior
A smooth, high gloss, durable finish in gel coat white, coupled with optimum UV protection ensures a maintenance free exterior.
We started it
Founded on mateship in 1973, TJM is the Aussie pioneer of 4WD equipment.

We’re tried and proven
Australia’s rugged, yet diverse landscape has provided the ideal testing ground. Whether your journey takes you on or off road, for work or play, TJM has the gear you can depend on.

We’re tough, yet sophisticated
Using the latest engineering and manufacturing technology, our products are exposed to stringent testing and thorough quality assurance procedures to guarantee our customers receive nothing but the best.

Everybody wants a piece of us
Our research and development team brings leading-edge and performance-driven products. We’re the experts not just on our home turf but also offshore, so it’s not surprising TJM’s Aussie innovations are exported around the globe.
TJM IS WHERE YOUR JOURNEY BEGINS WITH OVER 60 STORES AUSTRALIA WIDE, STOCKING THE LARGEST RANGE OF THE BEST BRANDS
