ABOUT US

Back in the 70’s when 4WD’s were few and far between, three adventure seeking mates got their ‘off road thrill’ with customised FJ40s, F100s & Rovers. Each fitted with custom made bull bars, roll bars and sand tyres – they drew the attention of friends and bystanders. Before long, Lloyd Taylor, Cliff Jones and Steve Mollenhauer were making hand-made custom bars for a growing number of fans. As the demand continued to grow, they decided it was time to get serious.

In 1973, with little more than their combined initials, shared passion and appreciation for quality products - TJM was founded and the rest is history. They were pioneers and TJM became the first company in Australia to manufacture and distribute quality 4WD equipment.

Our product range has extensively grown to include; steel and alloy bull bars, nudge bars, side and rear protection bars, side steps, trade racks, roof racks, TJM recovery equipment, TJM winches, TJM XGS suspension, Airtec snorkels, TJM Pro Lockers and TJM roof top tents & awnings.

While TJM has grown to be a sophisticated operation, we have never forgotten the key elements that resulted in the formation of the brand.

Trust; from the quality of manufacturing.

Pride; in our innovative designs.

Adventure; heading out from suburbia and experiencing the wonders of our unique and breathtaking country, Australia.
TJM Outback bars employ a multiple fold channel/wing design. Folds are deliberately spaced across the channel for maximum strength and stylish looks. The upswept tapered wing provides excellent approach angle for accessibility.

Recessed LED fog lights come standard along with recessed polycarbonate indicators & park lights.

TJM bull bar uprights feature a single piece of steel which extends from the upright down through the bumper channel to the chassis mount, maximising strength. 40mm Cato straps soften the edges and add to the aesthetics.

TJM bull bars provide secure, strong and stable mounting points to fit a large array of driving lights & light bars. The strength of the TJM product guards against excessive movement that could result in a vibrating beam pattern, bulb failure or light body fatigue.

TJM’s channel design allows maximum airflow to the vehicle’s radiator. These vents, as well as the viewing hole on the top of the channel, also allow easy access to the vehicles winch controls.

TJMs mounting system is specifically engineered for each vehicle. The design spreads impact and winching loads evenly across the vehicle’s chassis. The design ensures the bull bar is strong enough for extreme conditions, and functions properly in impact events.

Integrated recovery points rated to 8000KG in a straight line pull when used with a 8000KG equaliser strap and 2 x 4.75T bow shackles. (Certain TJM bull bar models may not incorporate this feature).

Hidden behind the flip-up numberplate holder (MQ Triton Outback bar feature) is the engineered winch frame mount that accommodates a variety of winches and does not interfere with the vehicle’s air bag triggering system. The bar is designed and tested to endure the heavy stresses of winching.

T-slot recovery jack points allow a TJM recovery jack to be mounted directly onto the bull bar. (Certain TJM bull bar models may not incorporate the T-slot feature).

Many TJM bull bars come standard with integrated lower wing & centre guards. Additional Front, Sump & Transmission guards are also available separately depending on the vehicle.

The MQ Triton Outback bar features 63mm diameter tubing.

Certain TJM bull bar models may not incorporate all features.
MQ TRITON

63mmØ Outback steel bull bar
070SB13N50Q - SUITS PETROL & DIESEL MODELS
1 & 2 | 63mmØ modular sidebars & steps

TJM Airtec snorkels

Snorkels are commonly the first accessory ever fitted to a four wheel drive. They assist with deep water crossings and provide hassle free air induction when immersed in dust. Air is cooler and cleaner at roof level than air travelling via the bonnet, which means greater fuel efficiency and less clogging of air filters. These are important factors, particularly when 4WDing on dry, dusty roads.

TJM Airtec snorkels are manufactured at the highest level. All products are made with leading Australian polymer materials that exceed the Australian Standard for UV stabilisation of UV8, with ratings at UV20-UV24. The colour pigmentation process doesn’t cut any corners either, giving you an even, dense and bleed-free product.

Unlike other manufacturers, TJM individually engineer and design the snorkel to suit the natural shape of the vehicle. Although functionality is important, we want you to look good too!

Proudly Australian made and quality assured, you can have the confidence that a TJM Airtec snorkel will achieve peak performance each and every time.

*Snorkel heads shown have been replaced with Airtec snorkel head (011AR14B97T) shown left
TJM XGS Series 4000 suspension

Whether you’re tackling corrugated roads, rough terrain, or you need to tow a caravan across the country, a TJM XGS Series 4000 suspension kit will improve every aspect of driving from road handling, braking ability, cushioning the ride from bumps and ruts, and noise and vibration... all whilst protecting the vehicle and its contents from wear and tear.

TJM recovery equipment

Every situation is unique, and the right equipment and a well thought out plan are the key ingredients to successful vehicle recoveries. Designed by engineers and manufactured to the highest standards, TJM recovery equipment gets you out of trouble. Should you become bogged, stuck or immobile, TJM recovery gear becomes your backup plan to ensure you can continue your journey.

TJM Pro Locker

Experiencing life outdoors is best achieved behind the wheel of a 4WD. But, why is it when you finally take your 4WD out of suburbia onto what’s meant to be its home-turf that even the smallest obstacle becomes too challenging for your brand new, shiny 4WD? Well, it’s all about traction. Traction describes the relationship or grip that your tyres have with the ground, and loss of traction is the 4WD’s number one enemy. Without traction, your prized 4WD will be about as useful as an exercise bike at a suburban gym.

TJM air compressors

TJM has a range of vehicle mounted and portable compressors to suit your needs, whether that be for inflating tyres or operating TJM Pro Lockers.

TJM flares

Flares are essential when fitting wide wheels and tyres, to help protect paint-work from road grime, stones, sand and mud thrown up by the tyres. The TJM range of flares are available for most 4WD and commercial vehicles.
TJM underbody guards
To protect the most vulnerable components underneath the vehicle TJM underbody guards are constructed from 3mm thick steel sheet and incorporate strategic folds for incredible strength. They are electro-coated black for corrosion resistance of up to 500 hours. The advantages of electro-coating is that it gets into all the nooks and crannies and is much more resilient to chipping when knocked around, unlike powder-coated varieties.

› 3mm thick steel
› Provide excellent underbody protection
› Electro-coated black for up to 500 hours of corrosion resistance
› Press folded in strategic areas for absolute maximum strength
› Front underbody, sump and transmission guards available
› Drain access holes for sump and transmission where necessary

MQ Triton
Front underbody guard - PN. 077SBFUG50Q
Sump guard - PN. 077SBSUM50Q
Transmission guard - PN. 077SBTRA50Q

MN Triton & MY10 Challenger
Front underbody guard - PN. 077SBFUG50N
Sump guard - PN. 077SBSUM50N
Transmission guard - PN. 077SBTRA50N

ML Triton
Front underbody guard - PN. 077SBFUG50L

Pajero
Sump guard - PN. 077SBSUM52S (Suits NP - NW Petrol, Diesel & Exceed Petrol)
Transmission guard - PN. 077SBTRA52S (Suits NM - NP Petrol, Diesel & Exceed Petrol)
Transmission guard - PN. 077SBTRA52T (Suits NS - NT Models)
TJM electric winches

A TJM Torq winch is the essential risk management tool when venturing to remote locations and upping the stakes of your 4WD adventure. TJM’s range of new generation Torq winches now have even more power for increased line speed and faster recovery.

And there’s a TJM Torq winch that’ll fit most 4WD vehicles. There are 9,500lb and 12,000lb sizes, all with new and improved functionality and strength. The larger two models now have tough synthetic rope as standard for easier handling and improved performance.

Tested to meet Australian, and our own high standards, a TJM Torq winch will provide the right amount of ‘grunt’ in any situation, thanks to the carefully engineered balance of power and speed. For those who enjoy a challenge, owning a TJM Torq winch provides you with the freedom to visit more places. When you’re off the beaten track, stuck and lacking traction, it’s not always as simple as relying on a mate with traction to bale you out. Steep inclines and muddy conditions are problematic and adding a second vehicle to the dilemma doesn’t help anybody. Using a TJM winch, with a wireless remote for added safety, is a much better way to successfully recover your vehicle.

Engineered and manufactured by TJM in our 100% owned factory, the TJM winch range is 100% supported by TJM.

You’ll get unstuck faster and safer without ever having to rely on a mate.
Aeroklas are on the cutting edge of canopy manufacturing and development, being the first company in the world to offer Engineered ABS Double Shell Canopies. Both the inner and outer shells are moulded together to bring you twice the strength and durability than a single skinned canopy. The canopy features a higher impact resistance and ability to reshape after impact. Available in dual and space cab, the Aeroklas canopy is painted using OE quality paint giving it a perfect, glossy and flawless finish.
Central locking
- Central locking on rear door

C-Clamp system
- Easy to fix and requires no drilling into the vehicle body

Track mount roof bars
- Allows the fitment of roof racks with a loading capacity of up to 80kg

Handle lock & keys
- Large size, strong and easy to hold
- Key alike to windows

Window options
- Lift up or lift/slide windows available

LED dome light
- LED interior light with rear door switch

We’ve set the standard AS 1235; 2000
All dual cab canopies have successfully achieved a rated load capacity of 100kg.

Robust roof rack mounts
A dual layer of 4.5mm fibre reinforced composite greatly increases the thickness and strength.

Smooth exterior
A smooth, high gloss, durable finish in gel coat white, coupled with optimum UV protection ensures a maintenance free exterior.

Note: MQ Triton features shown visit your TJM distributor for more information on previous model Tritons.

A-Clamp system
- Easy to fix and requires no drilling into the vehicle body

Track mount roof bars
- Allows the fitment of roof racks with a loading capacity of up to 80kg

Window options
- Lift up or lift/slide windows available

LED dome light
- LED interior light with rear door switch
We started it
Founded on mateship in 1973, TJM is the Aussie pioneer of 4WD equipment.

We’re tried and proven
Australia’s rugged, yet diverse landscape has provided the ideal testing ground. Whether your journey takes you on or off road, for work or play, TJM has the gear you can depend on.

We’re tough, yet sophisticated
Using the latest engineering and manufacturing technology, our products are exposed to stringent testing and thorough quality assurance procedures to guarantee our customers receive nothing but the best.

Everybody wants a piece of us
Our research and development team bring leading-edge and performance-driven products. We’re the experts not just on our home turf but also offshore, so it’s not surprising TJM’s Aussie innovations are exported around the globe.
TJM IS WHERE YOUR JOURNEY BEGINS WITH OVER 60 STORES AUSTRALIA WIDE, STOCKING THE LARGEST RANGE OF THE BEST BRANDS
