TJM ¾ Steel Side Bars are manufactured from steel tube and designed to offer protection to the vehicle body panels, wheel arches, flares and sills. The ¾ Side Bars mount directly to the chassis with TJMs unique mounting system and neatly bolt to the bull bar with TJM Side Bar Clamps and are finished in black powder coat.

- Helps to protect paint and panels
- Chassis mounted
- Sand blasted, zinc treated and polyester powdercoated black
- Unique mounting system
- Allows easy access to the vehicle

**TYPE 1 ALLOY**
frontal protection bar

TJM Type 1 Frontal Protection Bar is designed for today’s sophisticated vehicle. Manufactured from high grade aluminium with fully welded construction, this ultra modern, classy and stylish bar replaces the original bumper and always looks great.

- High grade aluminium
- Air Bag compatible
- Polycarbonate lenses
- Fully welded construction
- Driving light compatible
- Bumperettes

**TYPE 15 ALLOY & STEEL**
frontal protection bars

The astute purchaser will love this no compromise TJM Type 15 Frontal Protection Bar - it has it all. Replacement channel for improved approach angles, large diameter raised centre section to accommodate driving lights and engineered for installation of most low mount winches.

The TJM Type 15 Frontal Protection Aluminium Bar is light weight and ideal for use in corrosive environments. The TJM Type 15 Steel bar is made of thick 3mm steel constructed and engineered to be as strong as possible. Additional ADR approved indicator and park lights enhance the bar. Driving light and aerial mounts are standard.

- Improved approach angle
- Raised centre section
- Stylish design
- Winch compatible
- Fits optional spot lights
- ADR approved polycarbonate indicators & park lights
- Aerial mounts standard
- Driving light mounts standard

**TJM STEEL**
¾ sidebars & steps

TJM ¾ Steel Side Bars are manufactured from steel tube and designed to offer protection to the vehicle body panels, wheel arches, flares and sills. The ¾ Side Bars mount directly to the chassis with TJMs unique mounting system and neatly bolt to the bull bar with TJM Side Bar Clamps and are finished in black powder coat.

- Helps to protect paint and panels
- Chassis mounted
- Sand blasted, zinc treated and polyester powdercoated black
- Unique mounting system
- Allows easy access to the vehicle
**TJM ACCESSORIES**

**wheel arch flares**

The combination of wheels, tyres and flares can greatly enhance the style and appearance of any vehicle. Flares are essential when fitting wide wheels and tyres, to help protect paintwork from road grime, stones, and mud thrown up by the tyres. Available in two designs:

- Deluxe Original Style - Finished in black gel coat
- Standard Under Guard Style - Finished in white gel coat

**TJM SIDE STEPS**

**stylemaster ii**

TJM Stylemaster II Side Steps are manufactured from anodised aluminium, are non-slip and include moulded end caps. The steps are mounted to the vehicle sub-frame with black polyester powdercoated steel mounts.

- Fits all dual cabs from 1/99+
- Allows easy access to the vehicle and roof racks

**TJM RB1**

**rear protection bar**

The classic TJM RB1 Rear Protection Bar is the perfect replacement rear bar.

- In-built step
- High polish finish

**TJM RB6**

**rear protection bar**

TJM RB6 Steel Tube Wrap Around Rear Bars are constructed from 50mm tube designed to provide additional protection to the Ford Courier. Featuring a useful tread plate step these rear bars also incorporate a Class 4 Heavy Duty Towbar certified to ADR62. The TJM RB6 Rear Bars are sand blasted, pretreated with a zinc phosphate to prevent rusting and then polyester powdercoated in black.

TJM RB6 Rear Bar includes tow tongue but not tow ball.

**TYPE 16 ALLOY**

**grille guard**

The stylish and sporty TJM Type 16 Grille Guard is manufactured from 76mm diameter tube, has a high polish finish and fits neatly over the existing front bumper. This TJM Type 16 Grille Guard includes provision for mounting driving lights.

- High grade aluminium
- 76mm polished tube
- Fully welded construction
- Driving light compatible
- Adds value to the vehicle

**TYPE 5 ALLOY**

**frontal protection bar**

This light weight bar is fitted over the original bumper and is ideal in light commercial applications. Made from aluminium, the TJM Type 5 includes driving light mounting points and is great for the 2WD and 4WD Ford Courier.

- Powdercoated steel support brackets
- 76mm polished aluminium centre
TJM canopies

TJM AIRTEC SNORKEL
every 4wd should enjoy the airtec advantage

Quality, reliability, performance - a few of the things you must have in a canopy. A TJM Canopy delivers - and then some. Built to work & play. On the job, or away on a trip, TJM Canopies will take the harshest conditions in their stride. Not only are TJM Canopies tough and durable, they combine practical design and style along with a host of features you’ve always wanted in a vehicle canopy.

The heavy duty aluminium hardware, designed and manufactured by TJM specifically to withstand rugged Australian conditions, means the canopy always rides and feels like it’s built on, not bolted on. Rain or shine, a TJM Canopy protects your gear and makes life easier, wherever you travel.

With TJM you get to choose from the widest range of canopy designs, options and accessories.

STANDARD FEATURES

• Designed and built specifically for individual vehicles
• ‘Hand Laid’ fibreglass shell
• Interior light
• Sliding front window or drop down window

• Side access windows
• Fold down front window
• Colour coding in quality 2 pack
• Interior roof lining
• Air vents - Pop up or Rotary
• Light duty carry racks
• Medium duty carry racks
• Brake light
• Canopy mesh

1. Fitting a TJM Airtec Snorkel means the air supply is drawn from roof level providing cooler and cleaner air to the engine.
2. Because the air supply is drawn from roof level, dust is not as thick and plentiful as in the engine bay or inner guard. This will help extend the life of the air cleaner element, therefore reducing the wear of vital components.
3. With the positively sealed TJM Airtec Snorkel, well above water level, you can expect worry-free water crossings.
4. When driving along the open road, the TJM Airtec Snorkel creates what’s known as a ram air effect, that has often been found to increase engine performance.
As well as adding sports appeal to any vehicle, the large 76mm diameter, Stainless Steel TJM Sports Bars provide optional mounting locations for off-road lights or communication aerials on some models.

Talk to your local TJM Retailer about what lights best suit your needs.

The TJM Ute Lid is the perfect way to store your valuable tools or cargo in the back of your ute securely while protecting them from the elements.

TJM Dual Battery Frames -
Are designed and laser cut from 2mm cold rolled steel and critical joints are fully precision MIG welded for maximum strength. Finished in a Super Alloy 5 Coating, they are supplied complete with mounting hardware including battery clamps. 3 YEAR WARRANTY
TJM OX recovery equipment

TJM offer a range of winches to assist with vehicle recovery. All TJM Winches include wire rope, roller fairlead guides, tree spooling clutch, automatic brake and remote hand control. The TJM OX 10,000lb Hydraulic Winch requires an individual vehicle hose kit.

The TJM Recovery Equipment brochure is available with more details & offers a range of Recovery Equipment including:

- Snatch Straps
- Tree Trunk Protectors
- Recovery Bags & Kits
- Tow Hooks
- Hand Winches
- Snatch Blocks
- Compressors
- Drag Chains
- Bow & 'D' Shackles
- Air Jacks
- Wheel Covers
- Recovery Jacks

8,000, 9,000 & 10,000lb winches

TJM OX electric winches

TJM has a range of electric winches to suit almost any need. The electric winch range can easily be fitted into any winch compatible bar and feature a positive braking mechanism to prevent the winch from allowing a vehicle to slide back down a hill when the user isn’t engaging the winch. Each winch includes cable, winch controller and roller fairlead as standard.

See TJM Recovery Equipment Brochure for more technical information and a look at our complete Recovery Range.

TJM OX hydraulic & hand winch

The power and strength of the TJM 10,000lb Hydraulic Winch is harnessed through the vehicle’s hydraulic system. The unique solenoid valve overrides the winching function should a change in steering direction be required. The hydraulic system allows the winch to operate for extended periods under load, providing constant and smooth recovery power. The patented two-speed TJM winch allows for fast rope retrieval on one speed while the other speed provides strong recovery capacity.

TJM air compressors

TJM’s range of air compressors aim to give the user a choice between a budget compressor and a premium compressor. All TJM Compressors come with an extensive 5 year warranty and are bundled with accessories as standard.

- For Low to Medium use, TJM recommends the TJM Compressor.
- For Medium to High amounts of use TJM recommends the TJM OX Compressor.
TJM XGS leaf springs

The original leaf springs of the Ford Courier are considered by some to be harsh riding, and often sag with age or when under constant load. TJM XGS Suspension resolves these problems with heavy duty springs of multi-leaf design. Australian made, using high grade steel, each spring is pre-stressed to reduce the possibility of sagging. TJM XGS Springs are available in either medium or heavy duty load carrying capacities.

TJM XGS shocks & polyair

TJM XGS 4WD Suspension have a number of kits available for the Ford Courier, to meet specific needs. Towing, load carrying and ground clearance can all be improved while still retaining ride quality.

POLYAIR SPRINGS SYSTEM - Coupled with TJM XGS Springs and Shock Absorbers, the Polyair Spring further assists in solving suspension problems and greatly improves handling, ride height and stability of your vehicle. A pressure increase of between 5 to 25psi will give a load increase of between 10 to 60%.

TJM XGS suspension components

GREASABLE SHACKLES - Stronger than original equipment and greasable for easy servicing.

U-BOLTS - Made from quality carbon steel with a rolled thread to increase strength.

TJM POLY BUSH KITS - Manufactured from resilient high grade polyurethane, these bushes are designed to reduce suspension noise, vibration and harshness.
Our 4WD accessory range is distributed and serviced throughout an Australia wide network of over 50 retail outlets and exported to more than 45 countries. We pride ourselves on only making and selling products that meet and exceed the expectations of every one of our loyal customers. Should you ever require it though, TJMs warranty, back-up and after sales service is second to none.

With a testing ground like Outback Australia at our disposal, you can be assured that every new piece of TJM equipment has been put through its paces in one of the harshest environments in the world before we make it available to you. We know that having equipment fail you in the wrong situation can be the difference between life and death, so we do our very best to provide you with products that keep on performing throughout the life of the vehicle and beyond.

More information on TJMs extensive range of products and store locations is available at www.tjm.com.au.
