TJM Type 11 Frontal Protection Bars are designed with a full width channel and offer style and functionality. Fitting over the original bumper they will provide strong and sturdy protection to the original bumper and grille.

- Full width aluminium channel
- Air Bag Compatible mounting system
- ADR approved indicators
- High polish finish or powdercoated solatex grey finish
- Driving light provision
- Optional stainless steel aerial bracket

TJM's range of Type 11 Frontal Protection Bars have been designed specifically to give protection to the vehicle without detracting from its style. You shouldn’t travel outside of the city without one of these bars.

Note: On all TJM Type 11 Frontal Protection Bars, driving lights are optional.

TJM Ute Lids are stylish and provide the perfect way to securely store valuable tools or cargo in the back of your ute and protect them from the elements.

- Smooth or leather grain finish
- Locking points
- Quality gas struts
- Able to be easily removed when required
- Australian made
- Colour coded paint & carpet lining (optional)
TJM Type 16 Grille Guards are designed to maintain the character of your vehicle. Light weight and fitting over the original bumper, they will provide limited protection to the original bumper and grille if you happen to make contact with an obstacle or vehicle in front.

TJM’s alloy range has been developed with 35 years of experience behind it which will ensure that you will only ever need to buy this product once.

- 76mm highly polished tube
- 4.7mm wall thickness tubing
- Driving light provision
- Air Bag compatible mounting system
- Optional stainless steel aerial bracket

TJM UTE LINERS - Are custom moulded to suit your vehicle and are easily installed. The liner is moulded to the tray ensuring that it is fully supported in all areas. Made from high impact polyethylene plastic which is resistant to UV light, petrol, diesel, battery acid and most other chemicals.

TJM UTE MATS - Are custom moulded to suit your vehicle and are easily installed. The mats are manufactured from 8mm thick, heavy duty recycled rubber.

Note: On all TJM Type 16 Grille Guards, driving lights are optional.
Quality, reliability, performance - a few of the things you must have in a canopy. A TJM Canopy delivers - and then some. Built to work & play. On the job, or away on a trip, TJM Canopies will take the harshest of conditions in their stride. Not only are TJM Canopies tough and durable, they combine practical design and style along with a host of features you’ve always wanted in a vehicle canopy.

The heavy duty aluminium hardware, designed and manufactured by TJM specifically to withstand rugged Australian conditions, means the canopy always rides and feels like it’s built on, not bolted on. Rain or shine, a TJM Canopy protects your gear and makes life easier, wherever you travel.

With TJM you get to choose from the widest range of canopy designs, options and accessories.

TJM sales can assist in advising the appropriate canopy and options.
EVERY FALCON SHOULD ENJOY THE TJM AIRTEC ADVANTAGE

1. Fitting a TJM Airtec Snorkel means the air supply is drawn from roof level providing cooler and cleaner air to the engine.

2. Because the air supply is drawn from roof level, dust is not as thick and plentiful as in the engine bay or inner guard. This will help extend the life of the air cleaner element, therefore reducing the wear of vital components.

3. With the positively sealed TJM Airtec Snorkel, well above water level, you can expect worry-free water crossings.

4. When driving along the open road, the TJM Airtec Snorkel creates what’s known as a ram air effect, that has often been found to increase engine performance.
