TYPE 15 ALLOY DELUXE
protection bar

- Steel
- Zinc treated & polyester powder-coated
- 3mm steel channel construction
- 63mm diameter raised centre section
- Improved approach & departure angles
- Dual HF tested aerial mounts
- Polycarbonate indicator/park assembly
- Accommodates large driving lights
- Winch frame comes standard
- Accommodates a wide variety of winches
- Airbag compatible
- Does not void new car warranty.

TYPE 15 STEEL
protection bar

- Steel
- Zinc treated & polyester powder-coated
- 3mm steel channel construction
- 63mm diameter raised centre section
- Improved approach & departure angles
- Dual HF tested aerial mounts
- Polycarbonate indicator/park assembly
- Accommodates large driving lights
- Winch frame comes standard
- Accommodates a wide variety of winches
- Airbag compatible
- Does not void new car warranty.

STEEL
3/4 sidebars & steps

- Steel
- Zinc treated & polyester powder-coated
- 50mm diameter tube
- Engineered mounting system
- Excellent sill protection
- Excellent panel protection
- Excellent flare & wheel arch protection
- Convenient tread plate step provides easy access to the vehicle.

TYPE 16 ALLOY
high loop grille guard

- High grade aluminium
- 76mm diameter tube
- Fits neatly over the original bumper
- High polish finish
- Fully welded construction
- Driving light compatible
- Stylish & sporty
- Adds value to the vehicle
- Airbag compatible
- Does not void new car warranty.
- Constructed from durable polyethylene
- Fits under drop side trays
- Provides a convenient tread plate step
- Rugged metal clip lock
- Easy installation
- Supplied with all hardware.

- 3mm thick Steel
- Provides excellent underbody protection
- Super Alloy 5 finish
- Press folded to increase strength
- Drain access holes for sump and transmission where necessary.

- Fitting a TJM Airtec Snorkel means the air supply is drawn from roof level providing cooler and cleaner air to the engine.
- Because the air supply is drawn from roof level, dust is not as thick and plentiful in the engine bay or inner guard. This will help extend the life of the air cleaner element, reducing the wear of vital components.
- With the sealed TJM Airtec Snorkel, well above water level, you can expect worry free water crossings.
**TJM IBS & DBS**
Battery management systems

- Next generation micro controllers (IBS)
- First battery management system of its kind to have diagnostic capability (IBS)
- Two voltage indicators (IBS), LED status display (IBS)
- Manual override switch
- Auto disconnect function
- Starts on main battery
- 200 amp relay (IBS)
- Spike protection
- Maintenance free
- Swiss made quality & technology.

**RED CENTA**
Battery management system

- Can be fitted to any vehicle or boat with a DC system regardless of engine type or alternator size
- Simple to install. Only three wires to connect
- Automatic priority circuitry ensures charging of main battery first
- Voltage spike protection circuitry included
- Auxiliary battery automatically disconnects if main battery drops below 12.7V
- Australian Made.

**TJM ACCESSORIES**
Dual battery frames

- 2mm thick cold rolled steel
- Laser cut for quality fit
- MIG welded for maximum strength
- Super Alloy 5 coated finish
- Supplied complete with mounting hardware including battery clamps
- 3 year warranty.

**TJM XGS**
4WD suspension

TJM XGS 4WD Suspension have a number of kits available for all Mazda BT-50s, to meet specific needs. Towing, load carrying and ground clearance can all be improved while still retaining ride quality.

POLYAIR SPRINGS SYSTEM - Coupled with TJM XGS Springs and Shock Absorbers, the Polyair Spring further assists in solving suspension problems and greatly improves handling, ride height and stability of your vehicle. A pressure increase of between 5 to 25psi will give a load increase of between 10 to 60%.

- High grade steel
- Resolves harsh ride or sag when under load
- Multi-leaf design
- pre-stressed to reduce possibility of sagging
- Available in medium or heavy duty load carrying capacities.

**TJM ACCESSORIES**
Dual battery frames

TJM OX recovery winches & equipment

TJM OX ELECTRIC WINCHES
TJM has a range of electric winches to suit almost any need. The electric winch range can easily be fitted into any winch compatible bar and feature a positive braking mechanism to prevent the winch from allowing a vehicle to slide back down a hill when the user isn’t engaging the winch. Each winch includes cable, winch controller and roller fairlead as standard.

TJM OX HYDRAULIC WINCHES
The power and strength of the TJM Ox 10,000lb Hydraulic Winch is harnessed through the vehicle’s hydraulic system. The unique solenoid valve overrides the winching function should a change in steering direction be required. The hydraulic system allows the winch to operate for extended periods under load, providing constant and smooth recovery power. The patented two-speed TJM winch allows for fast rope retrieval on one speed while the other speed provides strong recovery capacity.

TJM OX HAND WINCHES
Capable of a pulling 2500kg the TJM Ox Hand winch can be used at any angle and is not restricted in rope length. Its design enables the wire rope to be fed through a set of wear resistant locking jaws by a single operating lever. The locking force on the wire rope increases as the load on the hand winch increases.

TJM OX RECOVERY EQUIPMENT
TJM offer a range of recovery equipment including: Snatch Straps, Tree Trunk Protectors, Recovery Bags and Kits, Snatch Blocks, Drag Chains, Bow & ‘D’ Shackles, Air Jacks, Recovery Jacks and Pillow Tracks.

The TJM Ox Air Compressor is a powerful heavy duty compressor built to perform. Made to TJM’s exact specifications for the mid-high level offroad enthusiast, it can be used as a tyre inflation compressor as well as to activate TJM Pro Lockers.

See TJM Recovery Equipment Brochure for more technical information and a look at our complete OX Recovery Range.
TJM is distributed and serviced throughout the largest 4WD accessories network in Australia and exported to more than 45 countries. TJM make and sell products that meet and exceed the expectations of every one of our loyal customers.

With the Australian Outback at TJMs disposal, you can be assured every piece of TJM equipment has been put through its paces in one of the harshest environments in the world. We know that having equipment fail you in the wrong situation can be the difference between life and death, so we do our very best to provide you with products that keep on performing throughout the life of the vehicle and beyond.
