TJM OX WINCH RANGE
TJM’s range of winches are well known around the world for both their high build quality and reliability. TJM extensively test our entire range of winches in the field to ensure they all meet and exceed our own high standards; only then will we brand them with the TJM OX Logo.

WHY DO WE OFFER A RANGE OF TJM OX WINCHES?
The requirements for each vehicle and driver are unique. Our experienced TJM 4WD Megastore specialists will help you with choosing the right winch for the job, so please ask if you have any questions.

TJM OX 10,000lb HYDRAULIC
The power and strength of the TJM OX Hydraulic Winch is harnessed through the vehicle’s hydraulic system. The unique solenoid valve overrides the winching function should a change in steering direction be required. The hydraulic system allows the winch to operate for extended periods under load, providing constant and smooth recovery power. The patented two-speed OX winch allows for fast rope retrieval on one-speed the other speed provides strong recovery capacity.

FEATURES:
• 2 Speed operation
• Smooth winching power
• Continuous winching operations
• Forward & reverse operation
• Planetary gear drive
• Automatic load holding brake
• Multiple safety features

OPTIONS:
• Cordless remote control unit
• Power steering oil cooler
• Dump valve
• (to isolate power steering - giving priority to winching)

Specifications at 7600KPA (1100P.S.I.)
Pump Pressure with a Flow Rate of 5 litres per minute (appropriate for most 4x4’s)

TJM OX ACCESSORIES
WINCH STRAP
TJM OX Winch Straps are designed to be used when extra length is needed for winching. Available in 10, 20 & 30 metre lengths. Warning: Winch straps must not be used as snatch-um-straps

TREE TRUNK PROTECTOR
When winching or anchoring to a tree, a TJM OX Tree Trunk Protector is vital to protect the tree from ring barking as well as protecting the winch cable from unnecessary wear.

EQUALISER STRAP
When recovering a 4WD vehicle without a separate chassis, the TJM OX Equaliser Strap is an important addition which helps to spread the weight evenly between two points.

SNATCH BLOCK
The TJM OX Blocks effectively double the capacity of the winch. The TJM OX Snatch Blocks useful in recovery situations where the winch anchor point is not in a direct line of the vehicles winching direction.
Illuminated controls (IP67 Plugs)

FRP sheath protecting all cables

FEATURES & BENEFITS

• Integrated solenoid control pack
• Illuminated controls (IP67 Plugs)
• High output series would motor
• Planetary gear system
• Automatic load holding brake
• FRP sheath protecting all cables
• Free spooling
• Power in & power out
• Low electric current
• 3/8inch x 92ft aircraft cable (Nominal 14,400lbs)
• Anti-corrosive coated roller fairlead
TJM is distributed and serviced throughout the largest 4WD accessories network in Australia and exported to more than 45 countries. TJM designs, manufactures & sells products that meet and exceed the expectations of every one of our loyal customers.

With the Australian Outback at TJMs disposal, you can be assured every piece of TJM equipment has been put through its paces in one of the harshest environments in the world. We know that having equipment fail you in the wrong situation can be the difference between life and death, so we do our very best to provide you with products that keep on performing throughout the life of the vehicle and beyond.
